Daily reported caloric intake (kcal)	3004 (593)	2477 (488)	-556 [-748;-363]	p<0.001

Data are means (SD) for baseline and year one values or median interquartile range for not normally distributed values. Data are means [95 CI] for one-year change. P values report results of ANOVA repeated measures. Abbreviations: body mass index (BMI), visceral adipose tissue (VAT), subcutaneous abdominal adipose tissue (SAT), total recording time (TRT), oxygen desaturation index (ODI), respiratory disturbance index (RDI), CI (confidence interval).
